

CMG TRAINING PROGRAM TRAINEE COLLOQUIUM

June 5, 2008

- 1:00 p.m. - 1:05 p.m. Randy Hampton
Welcome
- 1:05 p.m. - 1:30 p.m. Siler Panowski, Dillin Lab, Biological Sciences/The Salk Institute
“Dietary Restriction in *C. elegans*: Living Longer by Eating Less”
- 1:30 p.m. - 1:55 p.m. Dannielle Engle, Wahl Lab, Biological Sciences/The Salk Institute
“Identification, Isolation, and Characterization of Mouse Mammary Stem Cells”
- 1:55 p.m. - 2:10 p.m. ***Break***
- 2:10 p.m. - 2:35 p.m. Ben Gallarda, Pfaff Lab, Biological Sciences/The Salk Institute
“Spinal Cord Miswiring and Its ‘Eph-fects’: The Role of Eph-ephrin Signaling in Sensory-motor Development”
- 2:35 p.m. - 3:00 p.m. Colleen Naeger, Karlseder Lab, Biological Sciences/The Salk Institute
“WRN and BLM RecQ Helicases and Telomere Maintenance”
- 3:00 p.m. - 3:15 p.m. ***Break***
- 3:15 p.m. - 3:40 p.m. Adam Paré, McGinnis Lab, Biological Sciences
“Potential regulation of the Hox gene Antennapedia by the miRNA miR-iab-4-5p”
- 3:40 p.m. - 4:05 p.m. Angela Parrish, L. Wang Lab, Biological Sciences/The Salk Institute
“Encoding Unnatural Amino Acids in *C. elegans*”
- 4:05 p.m. - 4:30 p.m. Jordan Meier, Burkart Lab, Chemistry and Biochemistry
“Profiling Natural Product Biosynthesis”
- 4:30 p.m. ***Happy Hour!!***
