

CMG TRAINING PROGRAM TRAINEE COLLOQUIUM

March 16, 2009

- 11:30 a.m. Lunch
- 12:00 p.m. - 12:05 p.m. Randy Hampton
Welcome
- 12:05 p.m. - 12:30 p.m. Zoya Kai, Pasquinelli Lab, Biological Sciences
“Regulation of the let-7 miRNA”
- 12:30 p.m. - 12:55 p.m. Herve Tiriac, T. Johnson Lab, Biological Sciences
“The Cyclin-dependent Kinase Complex Bur1/2 Plays an Unexpected, Transcription-Independent Role in Pre-messenger RNA Splicing”
- 12:55 p.m. - 1:20 p.m. Shannon Seidel, Young Lab, Biological Sciences/The Salk Institute
“Characterization of Host Cell Factors Involved in the Early Stages of Retrovirus Replication”
- 1:20 p.m. - 1:35 p.m. *Break*
- 1:35 p.m. - 2:00 p.m. Kristen Espantman, O’Shea Lab, Biological Sciences/The Salk Institute
“Adenovirus Inactivation of p53: Shifting the Paradigm”
- 2:00 p.m. - 2:25 p.m. Christine Shulse, Allen Lab, Biological Sciences
“Distribution and Diversity of Microbial omega-3 polyunsaturated Fatty Acid Biosynthetic Genes in the Marine Environment”
- 2:25 p.m. - 2:50 p.m. Robert Teachenor, Murre Lab, Biological Sciences
“Regulation and Function of Helix-Loop-Helix Proteins in Lymphocyte Development”
